

# Duyarlı Koli '2021

Since the beginning of the Covid-19 pandemic, we have been through a very difficult process as the people of the world. Many events in our country and in the world strengthened us as much as they forced us. In all this confusion, we perhaps understood the value of “goodness” the most. Perhaps we have never felt so deeply the importance of sharing, reaching out and being united.

In the first of the Duyarlı Koli, we were able to deliver support packages to 50% of families living in deep poverty in Nişantepe. **We want to continue the bridge that we started to build with the families living in Nişantepe Mahallesi in 2020 with the Duyarlı Koli project, in 2021 as well.**

**By filling out the form below, you can send basic food and cleaning supplies to as many families' homes as you want.** Here are the steps you need to follow;

- Fill out the application form.
- Wait for the notification e-mail that will be sent to you from the adresliozu@ozyegin.edu.tr address. In cooperation with Nişantepe Elementary School, we will share the contact information of the families whose needs we learned about the urgency, and a shopping list to guide you.
- After the e-mail you receive, go to any online market / shopping application, fill your cart with the materials you want based on the list we shared.
- Enter the address we sent you as the delivery address and your own address as the billing address.

**Last day to fill the application form: 10 October**

**Last day to submit: 15 October**
